Notification of Values of Fee and Penalty Units

Victorian Government departments and agencies charge fees for services and regulatory purposes, including licensing and registering certain activities, and fine for improper conduct and to discourage unlawful behaviour. Fees and fines are officially set and revised by legislation relevant to their application.

Under section 6 of the Monetary Units Act 2004, the values of fee and penalty units for the financial year commencing 01 July 2021 are as follows:

- a) the value of the fee unit is \$15.03
- b) the value of the penalty unit is \$181.74

These are subject to change by the relevant government department and are as shown in the Victoria Government Gazette. For further explanation on fees and fines, the following fact sheet is available via the link below:

Explanation Table

Classifications

Pricing Basis

| | |
|---|---|
| F | Full Cost Pricing - Refers to the recovery of all direct and indirect costs involved in providing a service |
| M | Market Pricing - Refers to situations where Council provides services in competition with others in a competitive marketplace (and where Council must comply with National Competition Policy requirements) |
| P | Partial Cost Pricing - Refers to the situation where less than the full cost of providing a service is recovered. It implies the existence of subsidization from rate revenue or from revenue from other services |
| R | Regulatory - Refers to the situation where the price or fee for a service is set by legislation and Council cannot charge outside this framework |
| Z | Zero Cost Pricing - Where no price is charged for the provision of the service |

Pricing Principle

| | |
|---|--|
| A | Broad Community Service - Service provides a broad community benefit and it is impractical to levy a charge |
| B | Cost Benefit - Service is a minor part of the overall operation of the Council, or the potential for revenue collection is so minor as to be outweighed by the costs of collection |
| C | Shared Benefit - Benefits from provision of the service accrue to the community as whole as well as individual users |
| D | Stimulus - A stimulus to the demand for the service is required. In the short term only part of the cost of the service is to be recovered |
| E | Evasion - Charging prices to recover full cost may result in widespread evasion |
| F | Equity - The service is targeted to low-income users |
| G | User Benefit - Service benefits particular users, making a contribution to their individual income, welfare or profits, without any broader benefits to the community. |
| H | Regulatory - Fee Fixed by Legislation |
| I | Market - Service provided is in competition with that provided by others and there is pressure to set a price which will attract adequate usage of the service |
