1. Introduction and Background

The Southern Grampians Shire Council has developed a *Recreation and Leisure Strategic Plan* to guide Council and the community in the provision and development of recreation and leisure facilities and services.

The Southern Grampians Shire Council's previous strategy, *Leisure Services Strategic Plan 2006*, provided new directions and priorities for the provision of recreational and sporting facilities and services for 10 years and beyond. The recreation and leisure needs of the Southern Grampians community continues to change and evolve and many of the actions of that plan have been achieved. Council therefore determined that it was timely for the development of the *Recreation and Leisure Strategic Plan* that will continue to guide Council in meeting the immediate and long term recreation and leisure needs of the community.

The *Recreation and Leisure Strategic Plan* will be embedded into and support the Southern Grampians Health and Wellbeing Plan 2017 - 2020 (SGHWP). Recreation and leisure have a significant role to play in improving the health and wellbeing outcomes of the Southern Grampians community. Establishing the *Recreation and Leisure Strategic Plan* as a sub plan of the Municipal Health and Wellbeing Plan will realise and maximise the role of recreation and leisure in improving the health and wellbeing of the community.

1.1 Recreation & Leisure Strategic Plan Project Documents

The Southern Grampians Shire Council *Recreation and Leisure Strategic Plan* comprises four volumes of information. This report provides the detailed information for the project Masterplans for Lake Hamilton and Pedrina Park as follows:

- Section One: Introduction and Background
- Section Two: Lake Hamilton Masterplan
- Section Three: Pedrina Park Masterplan
- Appendices: Supporting Information
 - Lake Hamilton Facility Component Development Brief
 - Pedrina Park Facility Component Development Brief

The projects Volume One: The Strategic Plan and Recommendations includes:

- Section One: Introduction and Background Information
- Section Two: Research and Consultation Findings
- Section Three: Sport and Recreation Facility Inventory
- Section Four: Current Infrastructure Upgrades and Planning
- Section Five: The Strategic Plan and Recommendations
- Appendices: Supporting Information

The projects detailed background information is provided in Volume Two: Research and Consultation which includes:

- Section One: Introduction and Background
- Section Two: Sport Requirements and Standards
- Section Three: Sport and Recreation Participation and Trends
- Section Four: Sport and Recreation Facility Inventory
- Section Five: Facilities and Services Surveys
- Section Six: Key Stakeholder Consultations
- Appendices: Supporting Information

Volume Four presents the strategies and recommendations by priority and must be read in conjunction with Volume One, particularly Section Four Current Infrastructure Upgrades and Planning and Section Five Strategic Plan and Recommendations.

In addition, audits were undertaken on Council nominated facilities and the detailed results have been utilised to inform the development of strategies and recommendations relating to these facilities and included in Sections Four and Five of Volume One. It is important to note that at some facilities not all components were included in the audits.

2. Lake Hamilton Masterplan

Based on the study's key findings a facility design component brief for future development and direction of Lake Hamilton was developed. The component brief has been divided into three zones being:

- Zone One: Sports Facilities and Pavilion
- Zone Two: Active Recreation Zones
- Zone Three: Infrastructure and Outdoor Amenities.

Whilst some existing facility components may not meet requirements, upgrades / improvements have not necessarily been recommended / proposed. In some instances changes are only proposed at such time as existing facilities reach the end of life or club and/or external funding is secured. It is important to note that responsibility for the works identified may be the SGSC, tenant clubs / user groups or a combination.

The Facility Component Development Brief for each of the three zones are provided in Appendix 1.

Assessments of the structural suitability of the buildings, equipment and infrastructure has not been included in the project. Otium Planning Group notes that prior to any further consideration of the proposed improvements these will need to be undertaken to determine suitability and capacity for proposed re-development/s.

The project design architects, Peddle Thorp, have developed a Masterplan for Lake Hamilton based on the Facility Component Development Brief. The recommended future Masterplan is provided in the plans on the following pages along with a summary of key features and improvements.

Figure 3 Lake Hamilton Masterplan - Lakes Edge Adventure Playground and Proposed Developments

New, re-development and / upgrades have been identified with key features and improvements being:

1) Sport Facilities and Pavilion

- **Amenities:** overall refurbishment, DDA (ambulant) toilet provision and unisex accessible change and amenities with improved accessibility from car park and to and from the pavilion.
- **Pavilion:** provision of cooling and heating.
- **Indoor training area** - provision of gym / fitness training area:
 - Initially consider provision of club usage / access to facilities at HILAC rather than new provision.
 - Space to accommodate crew and coaches / trainers; equipment fitout; storage.
- **Storage:** additional storage in pavilion social area and /or improved fitout.
- **External covered viewing area / social / BBQ:** in area between pavilion and amenities: provide areas / shelter for tenant clubs, spectators and community to activate area and encourage social connections and facility usage.
- **Accessibility improvements:** smooth paths of travel (remove brick pavers); access to premises for all to and around the pavilion and surrounding infrastructure.

2) Active Recreation Zones

- **Playgrounds:**
 - Provision of two new local level playgrounds, to replace existing playgrounds at Brumley Park (near Rowing Pavilion) and one at Skatepark (potentially higher age / mixed age play).
 - Ensure that playgrounds are accessible for all, with accessible play equipment, equipment and experiences suitable for different users and abilities, protection / shelter from weather (rain, wind, sun), covered seating, shade sails over play equipment to be provided for sun protection.
- **Dog Park:**
 - District level that provides sections for small and large dogs with activity elements / equipment.
 - A safe place where dog owners / carers can visit with their dogs to play, have fun and learn new skills.
 - Increased protection of wildlife from off leash dogs. Consider making Lake Hamilton an on-leash area to protect wildlife (excludes Dog Park).

Example Dog Park

Source: Outdoor Design Source

<https://www.outdoordesign.com.au/find/dog%20park>

- **Active Recreation Zones:**

- Active recreation equipment in vicinity of skatepark such as ½ court basketball, outdoor table tennis tables, etc with the aim of providing a diversity of activities for local children, young people and families.
- Activity Zone in vicinity of existing Lakes Edge Adventure Playground providing a variety of activities such as 4 square, hit up wall, outdoor table tennis tables, ½ court, etc.

Source: Popp Ping Pong Tables
<https://popp.world/au/the-hero/>

- Flat open area for activities and games such as frisbee, kite flying, etc.
- Role Play Bike Facility where children can learn to ride their bike in a safe environment.

Queens Park Healesville - Example role play bike facility

Source: <https://www.yarraranges.vic.gov.au/Lists/Parks-Facilities/Queens-Park>

- **Supporting Infrastructure and Amenities**

- Entrances: signage and features to identify the entrances to Lake Hamilton.
- Café: opportunity for socialising and extended visitation and destination for community and visitors. High profile location; trial pop-up first.
- Activity areas supporting amenities: BBQs and picnic facilities, accessible seating, bike storage, water fountains that include drink bottle and dog bowls at high usage locations, shade structures / shelters.
- Public Amenities: provision at activity areas; location of new activity areas in proximity to existing amenities (Lakes Edge Adventure Playground and Rowing / Aquatic Club Pavilion and amenities) where appropriate / possible. Refer No 1 above.
- Lighting: improve overall amenity and safety with provision of lighting (ESD) for main pedestrian paths, car parking and building entrances. Staged as funding available.
- Car parking - additional formed car parking at Lakes Edge Adventure Parking, formalised Disabled Parking at Rowing / Aquatic Club amenities and for new activity areas / zones (where required).
- Bird Hides - additional wheelchair accessible at suitable viewing points (1 - 2).

- Signage:
 - Directional to identify facility elements, buildings and places of interest and along walking / shared paths and for vehicles and pedestrians from around Hamilton, event / activity sign/s and interpretative signage.
 - Themed and use a consistent modern design, materials (durable) and colours.
 - Should be large, clear and legible, with tactile and Braille forms, free of any obstructions and not create a hazard for pedestrians or vehicles.
 - Pictograms used should follow Australian Standards.
 - Lighting of all main signs.
- Landscaping and Fencing:
 - Integration of facilities and landscape - use of landscaping to improve built infrastructure, using local indigenous species, drought tolerant, easy to maintain and low water plants.
 - Use of transparent low fencing throughout the site where possible for clear sightlines; minimise use to provide open landscape setting; use plantings to discourage climbing and graffiti.
 - Trees for natural shade and shelter.

3. Pedrina Park Masterplan

Based on the project's key findings a facility development component brief for future development and direction of Pedrina Park to achieve the design principles has been developed.

The component brief has been divided into three zones being:

- Zone One: Sport Playing Fields and Courts.
- Zone Two: Sport Pavilions and Multi-use Community Rooms.
- Zone Three: Infrastructure and Outdoor Amenities.

The standards and requirements (where applicable) for each being Australian rules football, cricket, hockey, netball and soccer are outlined in Volume Two Section 2. Whilst some existing facility components may not meet the governing body standards or requirements, upgrades / improvements have not necessarily been recommended / proposed (eg may be under the preferred ground size). In some instances, changes are only proposed at such time as existing facilities reach the end of life or club and/or external funding is secured. It is important to note that responsibility for the works identified may be the SGSC, tenant clubs / user groups or a combination.

It is important in the context of this project to note the following statement in the *AFL Preferred Facility Guidelines for State, Regional and Local Facilities* (Australian Football League, August 2012):

*It is acknowledged that many existing facilities may not meet these preferred standards, however it is not intended that they be used as a basis for assessing the suitability of existing facilities. Rather should existing facilities be considered for upgrade, then where possible, the guidelines should be used to inform facility development.*¹

The Facility Component Development Brief for each of the three zones are provided in Appendix 2.

Assessments of the structural suitability of the buildings, equipment and infrastructure has not been included in the project. Otium Planning Group notes that prior to any further consideration of the proposed improvements these will need to be undertaken to determine suitability and capacity for proposed re-development/s.

The project design architects, Peddle Thorp, have developed a Masterplan for Pedrina Park based on the Facility Component Development Brief. The recommended future Masterplan is provided in the plan on the following page along with a summary of key features and improvements.

¹ *AFL Preferred Facility Guidelines for State, Regional and Local Facilities*, August 2012, page 3.

Figure 4 Pedrina Park Masterplan

New, re-development and / upgrades have been identified with key features and improvements being:

1) Sport Playing Fields and Courts

- **Netball Courts:**
 - Six new full size lit compliant outdoor netball courts suitable for competition on existing site.
 - External amenities for players, coaches and officials - benches and shelters.
 - Lighting for night competition.
 - Space for an additional two courts in the future should there be sufficient ongoing demand however, to meet Netball Victoria requirements, this may require removal of trees and potential realignment of walking path and / or access road.
- **Multi-use Turf Sporting Field (Existing Oval 3):**
 - Local level turf sports field suitable for Australian rules football, cricket (synthetic wicket), soccer, athletics (schools and Little Athletics), hockey and modified sports options.
 - Athletics Facilities (in addition to grass track): jumping and throwing events; outside track given multi-use; external equipment storage (may be stand alone).
 - That to improve amenity and safety SGSC consider negotiating usage of the triangle of DELWP land to the north of the multi-use field.
- **Cricket Nets:**
 - Consider design of multi-use facility with retractable nets which can be opened up for field training/practice and for other sports such as soccer and hockey.
 - Minimum of three synthetic, however given three ovals additional may be required (up to 6 total). One or more nets may need to be locked. Consider need for provision of turf practice wickets.

2) Multi-use Sport Pavilions and Community Facilities

- **Netball & Hockey Pavilion (Extension):**
 - Hockey Change Room and Amenities - provision of two (unisex) change rooms and amenities.
 - Umpires Change & Amenities - two unisex change rooms for netball and hockey umpires / officials.
 - Unisex Accessible Change & Amenities - provide publicly accessible, modern easy to use and maintain accessible change room and amenities for people with a disability and facility users.
 - Kiosk / kitchen / bar - includes a servery to multi-purpose community room and external servery window; storage. Under cover areas for provision of external seating and tables.
 - Second large multi-purpose community room (80m² plus amenities and storage) to provide a social space for tenant user groups, user group and community meeting and function space.
 - Current netball change and amenities, multi-purpose room and kitchen/kiosk - at time of pavilion extension for hockey, refurbishment of change rooms (unisex) are considered and overall refurbishment of other existing facilities.
 - Public Toilets - unisex accessible public toilet with external access.
- **Australian Rules Football and Cricket Pavilions (Ovals 1 & 2):**
 - Shared usage is proposed between club / association users of the two existing pavilions to meet sport and club facility needs.

- Shelter / verandah to connect Oval 1 and 2 pavilions and extension around front of Oval 2 pavilion, to facilitate connection and shared use and multi-use of the infrastructure in the two pavilions. Include social facilities - BBQs, picnic tables, accessible seating provision, etc.
- Change rooms and amenities - cricket club and Oval 2 users to be able to access existing change and amenities provision in Oval 1 pavilion (current provision of change and amenities is insufficient / not of suitable quality for number of teams / cricket / oval users).
- Multi-use community space:
 - Provide home base for club / associations for activities, event presentations and meetings and a multi-purpose space to enable local community use.
 - Accessibility improvements to Oval 2 social areas including bar, kitchen and toilets (ramp from social area, unisex accessible toilet and male toilets to be upgraded).
 - Oval 1 tenant clubs / associations to be able to use existing provision in adjacent cricket pavilion (Oval 2) (shared use / multi-use of facilities).
- **New Soccer, Multi-Purpose & Community Arena**
 - New Multi-use Pavilion and Change Rooms are proposed to be a modern shared use accessible facility catering to the existing users of the soccer field and existing / new users of the proposed multi-purpose sports field (existing Oval 3). Will also service new users including new sporting competitions, training and local community groups and residents.
 - The key features and components are:
 - Four multi-use change rooms and amenities (unisex) for teams / players providing two soccer change rooms, two multi-purpose change rooms.
 - Unisex accessible change and amenities (external access).
 - One large multi-purpose community room (100m²) to provide a social space for tenant user groups, user group and community meeting and function space; storage.
 - Umpires / Officials change and amenities (unisex) are provided for male and female officials.
 - Kiosk / kitchen / Bar - includes a servery to multi-purpose community room and two external servery windows to enable separation of food and bar service; storage. Under cover areas for provision of external seating and tables.
 - Support facilities include public toilets (accessible, and unisex) with external access and internal to serve the multi-purpose community room, first aid room, office / meeting / administration and external storage.
 - External covered viewing area for spectators and users.
- **Support Infrastructure and Amenities**
 - Entrance: signage and features to identify entrance to Pedrina Park providing an entry statement as a municipal facility.
 - Public Amenities:
 - Demolish existing decommissioned public toilet block - improve site amenity.
 - Demolish existing Public Toilet Block (poor condition) near entrance when external accessible public toilets in Netball / Hockey pavilion are available (improves site amenity).
 - Continue to make available externally accessible public toilets in pavilions for casual Pedrina Park users.
 - Lighting: lighting of main pedestrian access paths, car parking and entrances to buildings.

- Car parking - locations to service each key precinct area as follows: existing provision at netball courts (may need to vary depending on new court design); hockey / soccer fields; Multi-use Pavilion and Change Rooms; Australian rules football / cricket (Ovals 1 & 2); drop-off area.
- Outdoor facilities for children, families and users:
 - Playgrounds: one new at Multi-use Pavilion and Change Rooms and one replacement at netball / Oval 1; accessible by people with a disability, protection / shelter from weather (rain, wind, sun); accessible seating (wheelchairs, prams, etc).
 - Social spaces - BBQs and picnic facilities; accessible seating; shade structures / shelters; bike storage - secure; water fountains (that include drink bottle fill up and dog bowls) at each pavilion and playground; access for all - design for everyone; wheelchair and pram spaces; Universal Design and Healthy by Design.
 - Shared path - walking / cycling paths in and around site with accessible seating at regular intervals (resting points).
- Rubbish enclosures to be provided at each pavilion that are separate to buildings / infrastructure.
- Signage:
 - To improve amenity and user experience provision of facility entry signage, internal wayfaring signage and directional signage.
 - Directional to identify facility elements, buildings and places of interest; event / activity sign/s; internal signage - site and information; include maps, emergency protocols, regulatory signage.
 - Themed and use a consistent modern design, materials (durable) and colours.
 - Lighting of all main signs.
 - Consistent with Southern Grampians Shire Council corporate image.
- Landscaping and Fencing:
 - Integration of facilities and landscape - use of landscaping to improve built infrastructure, using local indigenous species, drought tolerant, easy to maintain and low water plants.
 - Use of transparent low fencing throughout the site where possible for clear sightlines; minimise use to provide open landscape setting.
 - Use plantings to discourage climbing and graffiti.
 - Trees for natural shade and shelter.

3. Warranties and Disclaimers

The information contained in this report is provided in good faith. While Otium Planning Group has applied their own experience to the task, they have relied upon information supplied to them by other persons and organisations.

We have not conducted an audit of the information provided by others but have accepted it in good faith. Some of the information may have been provided 'commercial in confidence' and as such these venues or sources of information are not specifically identified. Readers should be aware that the preparation of this report may have necessitated projections of the future that are inherently uncertain and that our opinion is based on the underlying representations, assumptions and projections detailed in this report.

There will be differences between projected and actual results, because events and circumstances frequently do not occur as expected and those differences may be material. We do not express an opinion as to whether actual results will approximate projected results, nor can we confirm, underwrite or guarantee the achievability of the projections as it is not possible to substantiate assumptions which are based on future events.

Accordingly, neither Otium Planning Group, nor any member or employee of Otium Planning Group, undertakes responsibility arising in any way whatsoever to any persons other than client in respect of this report, for any errors or omissions herein, arising through negligence or otherwise however caused.

Appendix 1 - Lake Hamilton Facility Component Development Brief

Based on the project's key findings a facility development component brief for future development and direction of Lake Hamilton has been developed.

The component brief has been divided into three zones being:

- Zone One: Sport Facilities and Pavilion.
- Zone Two: Active Recreation Zones.
- Zone Three: Infrastructure and Outdoor Amenities.

Whilst some existing facility components may not meet the requirements, upgrades / improvements have not necessarily been recommended / proposed. In some instances, changes are only proposed at such time as existing facilities reach the end of life or club and/or external funding is secured. It is important to note that responsibility for the works identified may be the SGSC, tenant clubs / user groups or a combination.

Zone One - Sport Facilities and Pavilion

The current sports facility provision has been reviewed and assessed against requirements for the relevant competition / event level and information from key stakeholder consultations. New, re-development and/or upgrades and future facility requirements have been identified and utilised to inform the facility component schedule for these facilities in the following table.

Assessments of the structural suitability of the buildings has not been included in the project. Otium Planning Group notes that prior to any further consideration of the proposed improvements there will need to be design and construction and cost benefit analysis reviews undertaken to determine suitability and capacity for proposed developments.

Activity locations and picnic facilities. Locations where fishing activities. 		<ul style="list-style-type: none"> TBD 	
Rubbish enclosures	<ul style="list-style-type: none"> Secure cages for rubbish bin storage at pavilion. 	<ul style="list-style-type: none"> Users 	<ul style="list-style-type: none"> To provide secure and safe rubbish storage. 	<ul style="list-style-type: none"> Free standing away from any building / structures. 	<ul style="list-style-type: none"> Security, visual amenity and access for collection. 	<ul style="list-style-type: none"> 5m2 	5m2
Fencing	<ul style="list-style-type: none"> External fencing Internal fencing 	<ul style="list-style-type: none"> Users Community 	<ul style="list-style-type: none"> Fencing for safety of users (eg separation of pedestrians and vehicles). 	<ul style="list-style-type: none"> Alignment with external boundary. 	<ul style="list-style-type: none"> Develop standard style/s of fencing (external and internal). 		

Appendix 2 - Pedrina Park Facility Component Development Brief

Based on the project's key findings a facility development component brief for future development and direction of Pedrina Park to achieve the design principles has been developed.

The component brief has been divided into three zones being:

- Zone One: Sport Playing Fields, Courts and Pavilions.
- Zone Two: Sport Pavilions and Multi-use Community Rooms
- Zone Three: Infrastructure and Outdoor Amenities.

The standards and requirements (where applicable) for each being Australian rules football, cricket, hockey, netball and soccer are outlined in Volume Two Section 2. Whilst some existing facility components may not meet the governing body standards or requirements, upgrades / improvements have not necessarily been recommended / proposed (eg may be under the preferred ground size). In some instances changes are only proposed at such time as existing facilities reach the end of life or club and/or external funding is secured. It is important to note that responsibility for the works identified may be the SGSC, tenant clubs / user groups or a combination.

It is important in the context of this project to note the following statement in the *AFL Preferred Facility Guidelines for State, Regional and Local Facilities* (Australian Football League, August 2012):

*It is acknowledged that many existing facilities may not meet these preferred standards, however it is not intended that they be used as a basis for assessing the suitability of existing facilities. Rather should existing facilities be considered for upgrade, then where possible, the guidelines should be used to inform facility development.*²

Zone One - Sport Playing Fields and Courts

The current sports fields and playing courts provision has been reviewed and assessed against the standards and requirements for the relevant competition / event level and information from key stakeholder consultations. New, re-development and/or upgrades and future facility requirements have been identified and utilised to inform the facility component schedule for these facilities in the following table.

Otium Planning Group notes that prior to any further consideration of the proposed improvements there will need to be design and construction and cost benefit analysis reviews undertaken to determine suitability and capacity for proposed developments.

² *AFL Preferred Facility Guidelines for State, Regional and Local Facilities*, August 2012, page 3.

ZONE ONE: SPORT PLAYING FIELDS AND COURTS

Activity Area	Facility Components / Improvements	Target User Markets	Facility Objectives	Functional Relationships	Other Features to consider	Area Schedules	Total Area (m ²)
NETBALL							
Netball Courts	Six full size outdoor lit compliant netball courts suitable for competition with fencing.	<ul style="list-style-type: none"> • Competition • Training • Sport Programs • Events • Casual Users 	<ul style="list-style-type: none"> • Provide competition standard local level netball courts. • To provide a safe venue for sporting events. • Facility suitable for range of netball sport development and competition programs. 	<ul style="list-style-type: none"> • Access to pavilion and amenities. • Supported by team benches and officials bench seating. • Spectator areas adjacent to courts. • Proximity to kiosk and social areas. • North-south court orientation. 	<ul style="list-style-type: none"> • Sports lighting for night competitions (200 average lux). • Potential that some may be to training standard with capacity for subsequent upgrade should demand require. • Perimeter fencing with access gates for emergency / maintenance access and sufficient pedestrian access; 3m high where adjacent to car parking, roads, or security ball issues; 1.2m on any other sides to maintain a welcoming feeling; comply with relevant Australian Standard. • Install root barriers to prevent ongoing issues with courts. • Area identified for additional two courts if sufficient demand in the future (may require removal of trees and realignment of walking path and / or access road). 	<ul style="list-style-type: none"> • Each court 30.5m long and 15.25m wide. • 3.05m run-off clear space, of same surface as court outside each sideline and end line and 3.65m between courts. • 2m between team benches and spectators. • In accordance with Netball Victoria Compliance Factsheet. 	<p>1,620m² by 3 = 4,860m²</p> <p>Need to include allowance for spectator area / space between courts depending on layout. Potential additional two courts not included in areas.</p>

Zone Two - Multi-use Sport Pavilions and Community Facilities

The current sports pavilion provision has been reviewed and assessed against the standards and requirements for the relevant competition / event level and information from key stakeholder consultations. New, re-development and/or upgrades and future facility requirements have been identified and utilised to inform the facility component schedule for these facilities in the following table. In addition the provision of facilities to meet sport and recreation community needs has been incorporated. At such time as facilities reach end of life or are decommissioned consideration of consolidation of buildings where viable with multi-sport pavilion is recommended.

Assessments of the structural suitability of the buildings has not been included in the project. Otium Planning Group notes that prior to any further consideration of the proposed improvements there will need to be design and construction and cost benefit analysis reviews undertaken to determine suitability and capacity for proposed developments.

Zone Three - Support Infrastructure and Amenities

The current support infrastructure and amenities provision has been reviewed and assessed against the information from key stakeholder consultations. New, re-development and/or upgrades and future facility requirements have been identified and utilised to inform the facility component schedule for support infrastructure and amenities in the following table.

Assessments of the structural suitability of the buildings and equipment has not been included in the project. Otium Planning Group notes that prior to any further consideration of the proposed improvements there will need to be design and construction and cost benefit analysis reviews undertaken to determine suitability and capacity for proposed developments.

ZONE THREE: SUPPORT INFRASTRUCTURE AND AMENITIES

Activity Area	Facility Components Improvements /	Target User Markets	Facility Objectives	Functional Relationships	Other Features to consider	Area Schedules	Total Area (m ²)
Entrance	<ul style="list-style-type: none"> Signage and features to identify the entrance to Pedrina Park. 	<ul style="list-style-type: none"> Facility users 	<ul style="list-style-type: none"> To provide a main entry statement for Pedrina Park. 	<ul style="list-style-type: none"> Clear visibility of entrance and facility sign from North Boundary Road.
